

42" TFT Panel PC CNC training system

Training System for CNC machines

Especially for qualified education or training in your company, we offer a TFT monitor for additional mounting on CNC machines. This screen can display both the contents of the control unit and the image in the workspace. The image of the work area can be realized through the positioning of an IP camera directly within workspace. A switching of the two views is simple via a button on the operator panel. For a large number of students now it is possible to follow directly with the action on the control unit and in the work area.

- TFT-Display, diagonal 42"
- Intel Atom N270, 1,6 GHz, fanless
- SSD 32GB
- Interfaces: LPT, RJ-45, COM, VGA, USB, keyboard, mouse
- Operating system: Windows XP Pro or XP Embedded (optional)
- Input voltage 110-230V AC
- Housing: full-metal RAL7035
- Long time availability
- Options: IP-camera (article 236IP6850)

Order-no.: 2362090

Hint: Subject to change without prior and any misprints.

Technical data

Display	42" TFT
Resolution	1366 x 768
Brightness	500 cd./m ²
CPU	Intel Atom Prozessor N270, 1,6 GHz fanless
DRAM	240-pin DDRII 800/667/533 MHz to 2 GB
HDD	2,5" SSD (Solid State Disk) 32GB
Interfaces	1 x LPT 2 x RJ-45 1 x Audio OUT 1 x COM1 1 x VGA 4 x USB 2.0 1 x PS/2 keyboard 1 x PS/2 mouse 1x Audio line-out/microphone
Operating system	Windows XP Pro or XP Embedded (optional)
Input voltage	110-230VAC
Housing	full-metal
Colour (Housing)	RAL 7035
Dimensions (HxVxD)	990,6 x 583,6 x 109,3 mm
Weight	25 kg
Operating temperature	0 ~ 50°C
Long Time Test	48h burn-in
Protection	CE

Order-no.: 2362090

Hint: Subject to change without prior and any misprints.
